## ENVIRONMENTAL CONSULTANTS/ENGINEERS PROFESSIONAL LIABILITY

### COVERAGE APPLICATION

Environmental Consultants/Engineers Professional Liability (ECE) was created to provide a financing mechanism for environmental consultants and engineers to protect from damages arising from acts, errors and omissions in performing professional services.

### POLICY FORM

ECE Professional Liability provides coverage for direct and vicarious professional liability arising out of services performed by or on behalf of the named insured. Policies are written on a claims-made form.

Unless endorsed to exclude, the ECE Professional Liability policy will provide coverage for pollution and mold arising from professional services. Furthermore, it can be modified with the addition of a Contractor's Pollution Liability (CPL) endorsement to provide appropriate pollution coverage in the event a firm is performing actual/physical contracting or remediation services.

The ECE Professional Liability policy can be written on a project-specific basis or practice/blanket basis.

### PROGRAM HIGHLIGHTS:

- External financing mechanism for both professional and environmental losses that would otherwise be incurred by the environmental firm.
- The ECE Professional Liability policy provides coverage for defense costs from both owners and third parties. With both professional and environmental liability, defense costs alone can be catastrophic to a business.
- Provides vicarious protection from losses due to inadequate insurance limits or coverage of sub-design professionals.
- Fulfills contractual obligations of owners.
- Underwriting process assists the environmental firm in managing their professional liability risk.
- Positive perception in the industry and community where services are being performed.
- Creates a competitive advantage when the benefits of such coverage are properly conveyed to the owner.
- Contractor's Pollution Liability can be endorsed with an occurrence trigger and can provide coverage for transportation and disposal liability.
- Mold liability coverage can be included under both contractor's pollution liability and professional liability coverage parts, providing coverage for an extremely sensitive industry issue.
- Punitive damages (where allowable by law) can be provided. In cases involving environmental claims, especially mold, punitive damages coverage may be an extremely crucial coverage enhancement.

### POLICY TERM

- Practice or Blanket Policy (meaning all services performed by the named insured) is typically offered on an annual basis.
- Project policies can be offered up to 10 years (including Extended Reporting Periods)

## MARKET OVERVIEW

Today, there are approximately 30 carriers that offer various forms of ECE Professional Liability coverage. Carrier appetite varies dramatically from one to another based on their underwriting experience and company expertise. ECE Professional Liability currently represents nearly 10% of the professional liability marketplace. Each carrier offers their own manuscripted policy so careful attention must be given in reviewing each form for accuracy.

## LIMITS OF LIABILITY

- 100,000,000 per loss/\$100,000,000 aggregate limit of liability if structured with various carriers from the professional liability insurance marketplace.
- \$25,000,000 per loss/\$25,000,000 aggregate with any one particular carrier.

## RETENTIONS

- \$5,000 minimum.
- ECE Professional Liability carriers offer both self insured retentions and deductibles. Typically deductibles have to be negotiated prior to policy inception.

## PREMIUMS

Typical premiums begin around \$10,000 for the \$1,000,000 per loss/\$1,000,000 aggregate limit of liability.
